Archivio dello Spazio, 1995/1997

In 1995 we were invited to join one of the most important photographic projects carried out in Italy, in the Provincia of Milan. This project - started in 1984 and curated by Roberta Valtorta and Achille Sacconi - included many important Italian landscape photographers (as Ghirri, Basilico, Guidi, Jodice, Castella, Barbieri...) and some young photographers. Our task was to document few towns they assigned us, in any way we chose.

We took part in the last two campaigns of this project, in 1995 and 1997.
