**CARISSIMI**  
**(My very dear friends)**

(dedicated to Pasquale Cavaliere)

Made after a commission from the Fondazione Sandretto Re Rebaudengo, asking for a work to be made on the small town of Ciriè, near Turin.

The work is dedicated to an important political figure of the region, Pasquale Cavaliere, who grew in Ciriè.

Pasquale Cavaliere committed suicide in 1999, after an important career in the Green Party.

Recently the Ciriè administration dedicated to him a small garden near a medieval tower.

Our work was realized in that garden, with night pictures of trees and grass, and one daylight picture of the tower.

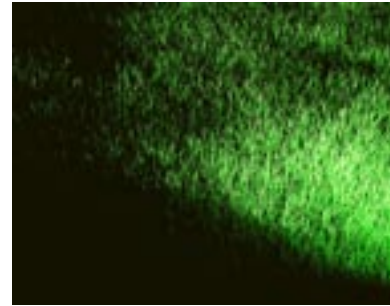

The project includes a short sentence by Pasquale Cavaliere:

*"My very dear friends, sometimes there are wheights that become untenable and I, maybe without realizing it, got many on my shoulders. Our generation had too many hopes and this has been too large a charge on us. We mixed politics with loves and now many between us can't disembroil this hank, made of feelings and never solved loves."*
